

**Barbara Bouldin is an author
of workplace romance novels
set in Silicon Valley circa 1985**

I'm excited to announce the release of *Digital Destiny*, and in celebration, I am making *Tangled Tech* available for the special price of \$.99. This is a limited-time offer and will only be available until December 26th. I'm including Christmas, so when you buy the book, you can purchase copies as presents for some of your favorite people. *Tangled Tech* is the first book in the Romance in Silicon Valley Series. It introduces Emma and Jake and describes how their relationship develops from enemies to lovers. The eccentric CEO, Ryan, is also featured amid corporate chaos and industrial spies who are attempting to steal the AI project.

We are less than a few days away from Thanksgiving. In *Digital Destiny* to celebrate the holiday, Emma and Jake are hosting a dinner. Mainly because they have the only place that could qualify as neutral territory. Since Emma does not participate in the activity of cooking, Jake will make the turkey. Emma is skeptical about his skill level, so we will just have to see if he can pull it off.

Just a reminder, *Digital Destiny* will only be available for one more week at the prerelease price of \$.99. Starting on the release day of November 24th, the price will be \$4.99.

Even though *Digital Destiny* is book three in the Romance in Silicon Valley series, it can be read as a standalone book.

Jake may or may not be a good cook, but fortunately, I will go to my daughter's house for Thanksgiving. This is fortunate because she is a gourmet cook, and my son is a top-notch cook also. I have concluded that their talents in this area are due to the fact that I did not always take cooking seriously. As they grew up, my children had plenty of opportunities to cook, because my contributions frequently consisted of pizza and KFC. When my daughter was a little girl, one day she told me that for dinner she wanted home-cooked. I asked her home-cooked what, and she said home-cooked anything

And Happy Reading,
